

# KODAK CYBERPEN Q100

ACTIVE STYLUS PEN

## Ultra-low power consumption, up to 18 months battery life

The KODAK CYBERPEN Q100 Active Stylus Pen is powered by the N-Trig technology, a perfect accessory for your compatible MPP 1.51 Protocol touchscreen devices, allowing you to sketch, write or annotate intuitively in any supported app. The CYBERPEN Q100 responds to the pressure of your hand precisely with no lag between the pen tip and your line - just like you would write on a sheet of paper. With its ultra-low power consumption design, the active pen can be used for long periods without for a recharge, as it has up to 18 months of battery life. This mean you can use your pen all day, and take it with you wherever you go.

- Active Capacitive Technology
- 1024 Pressure Levels
- Long Battery Life
- Super Light-weight
